Credit cards may be used for those that don't want a charge account. For charge accounts, the above section must be completely filled out. Invoices are mailed weekly and payment of invoices should be made on a timely basis or the account will be "locked out". Cards are free to new accounts. If a driver loses a card, you will be charged \$5/ea. for each lost card. If a card breaks while running a wash card through our machinery (the cards do wear out eventually), the card will be replaced at no cost. The broken card must be turned in to the appropriate personnel at the corporate office (do not give to wash employees) before a new card will be created.
